CAPITAL SUPPORT

PP Sengupta, managing director, IOB

As a prudent measure, we have sought some capital support, let us see how much we get. We want to keep capital as buffer for any exigency or contingency.

PLI SCHEME

Panel to review steps to boost investment

Scheme could be extended to steel, textiles and food processing, among others

FE BUREAU New Delhi, November 8

AMID THE PLANS to expand production linked incentive (PLI) scheme to more sectors to generate foreign and domestic investment, an empowered group of secretaries for investment (EGoS), chaired by Cabinet secretary Rajiv Gauba, will meet on Thursday to review steps taken by ministries and departments in various sectors through incentives and ease of doing business measures to attract investors, sources told FE.

After PLI scheme was notified on April 1, ministry of electronics and information technology (MeitY) has approved applications worth ₹35,541 crore for electronics manufacturing in the country. Under the scheme, an incentive of 4% to 6% on incremental sales (over base year) of goods manufactured in India and covered under target segments, is planned for eligible companies, for a period of five years subsequent to the base year as defined. In July this year, the Cen-

tre has also notified four production-linked incentive and pharmaceutical infrastructure schemes entailing a combined budgetary outgo of about ₹12,000 crore over multiple years, including for domestic manufacturing of drug intermediates (DIs) and active pharmaceutical ingredients (APIs). Under the scheme, financial incentive will be provided on sales of 41 identified products for six

After consultation with departments of revenue and expenditure, Niti Aayog has identified ten new sectors for extending the PLI scheme. According to sources in the government, the PLI scheme could be extended to steel, textiles and food processing, among others.

On June 3, with a view to support, facilitate and provide investor friendly ecosystem to those investing in India, the Union Cabinet has approved constitution of EGoS for investment. Its objective is to bring synergies and ensure timely clearances from different departments and ministries; to attract increased investments into India and provide investment support and facilitation to global investors; to facilitate investments of top investors in a targeted manner and to usher policy stability and consistency in the overall investment environment.

After approval of the Cabi-

net, detailed instructions were

issued to concerned ministries/departments for constitution of project development (PDCs) in ministries/departments on

June 10. The PDCs that have been set up in 29 ministries/departments are working around four pillars to

boost their investment targeting strategy. PDCs have identified target companies (both international and domestic) and classified them into high, medium and long term probability of conversion.

PDCs have also created

customised investment outreach strategies for identified target companies, which may see the participation of the Indian Missions abroad, holding webinars/investment forums/roundtables and/or reaching out to business associations. If the PDC has identified any cases worthy of EGoS consideration, they have made sure to include the same after considering the merits of the case.

"Covid has accelerated digi-

tal adoption and this excites

investors," Ishpreet Gandhi,

founder & managing part-

ner at Stride Ventures said,

adding that international

investors are betting on

India as global interest rates

are at all time low and also

there is political uncer-

tainty," Gandhi said.

DeMo anniversary: BJP, Cong spar over impact

PRIME MINISTER NARENDRA

Modi on Sunday said demonetisation has helped reduce black money, increase tax compliance and given a boost to transparency as the BJP and the Congress sparred over its outcome on the fourth anniversary of withdrawal of high value currency notes.

Congress leader Rahul Gandhi alleged that Modi's move was aimed at helping a few of his "crony capitalist friends" and had "destroyed" the Indian economy, prompting a strong response from the BJP which said the exercise was an "attack" on corruption and black money that were rampant during the "lost decade" of the Congress-led UPA government.

Gandhi and the Congress have been alleging that demonetisation was not in the interest of the people and had adverse effects on the economy, a charge the government has dismissed repeatedly.

On November 8, 2016 Modi announced on national television his government's decision to ban all currency notes of higher denomination of ₹500 and ₹1,000 from midnight on the same day.

Taking to Twitter, the prime minister listed the beneficial outcomes of demonetisation.

"Demonetisation helped reduce black money, increase tax compliance and formalisation and given a boost to transparency," he said

From the Front Page

After victory, Biden calls for unity and tolerance

Harris, 56, wore white, the color of suffragettes. She said she stood "on the shoulders" of struggling women like her mother, an immigrant. "While I may be the first woman in this office, I will not be the last," she said. Biden's message of healing

and unity capped a day of celebration by his supporters that contrasted with recrimination from Trump, who rejected the outcome of the election and vowed to contest individual state results in court. The Democrats' victorywas sealed shortly before noon New York time on Saturday, when Associated Press and television networks called the race in his favour.

By being declared the winner in Pennsylvania, Biden, 77, passed the threshold of 270 Electoral College votes needed to capture the presidency. He could end up with 306 votes if he wins in all the states where he is currently leading, a slightly larger edge than Trump had in 2016, when he secured 304 electoral votes.

Trump was in no mood to concede or even to signal to his supporters that it was time to stop the competition.

"I WON THIS ELECTION, BY A LOT!" Trump tweeted shortly before the race was called. On Saturdayafternoon, former New York City Mayor Rudy Giuliani appeared outside a Philadelphia landscaping company to declare without evidence that the Pennsylvania election was riddled with irregularities. Biden's margin was just over 37,000 votes out of more than 6.6 million cast in the state.

Trump was notably quiet during Biden's speech and the minutes after it ended. During the campaign, he would frequently tweet criticism of Biden and other Democrats as they spoke. The president's campaign

has filed a series of lawsuits and recount demands, but several cases have already been dismissed and none of them so far seems to have the potential to change the race.

Biden moved quickly in his prime-time address to claim his place as the incoming commander-in-chief. He immediately addressed the central theme of his campaign -- that he was more capable of responding to the coronavirus pandemic that has cost more than 237,000 lives in the US.

He announced that on Monday, he would name a group of advisers to convert his campaign ideas for containing the pan-

bedrock of science," Biden said. "It will be constructed out of compassion, empathy, and

chaired by former Surgeon General Vivek Murthy, former Food and Drug Administration Commissioner David Kessler and Dr. Marcella Nunez-Smith, a professor of public health at Yale University, according to a person familiar with his plans. It will also include Ezekiel Emanuel, a former Obama administration health adviser. The co-chairs are scheduled to brief Biden on Monday after the rest of the task force is announced.

quickly name his chief of staff, widely expected to be Ron Klain, a longtime aide who served as his vice presidential chief of staff during the administration of President Barack Obama. Klain also had leading roles in helping Biden manage the recovery from the 2008 economic crisis as well as the Ebola infections in the US in 2014, which never topped 11 cases.

But many of Biden's supporters didn't wait for those administrative announcements to

Consumer start-ups continue to get funds

Smaller players like FreshTo-Homes too have found supgrocer BigBasket which is believed to be shopping for \$400 million. For their part, Internet businesses have been quick to adapt to the new situation post the pan-

demic while addressing the needs of consumers. Withport; the company has got out doubt more consumers some \$121 million. Among have been transacting online during the lockdown; Grofers claims it has acquired 18 lakh new customers since lockdown while at BigBasket new customers increased by 84% compared to pre-Covid levels.

Rural consumption should

aggregate revenues in the Septemberquarter—a fall of 8.27% y-o-y for 805 companies stems from a sharp fall reported by some large players and only small increases for others; a 24% y-o-y fall in the revenues at Reliance Industries, a 12% y-oydropat Larsen & Toubro, a 65% y-o-y drop at Shoppers Stop and a 66% y-o-y decline at Interglobe Aviation. HUL's organic volumes increased by just 1%yo-y in the quarter and revenues byjust 3%y-o-y.ACC's volumes,

enues flat. Although net selling

ing margins is the result of good housekeeping and efforts to conserve cash, essentially steep cuts in cost save on everything from promotional spends to staff. While benign input costs have no doubt helped — raw materials to sales were down a chunky 500 bps y-o-y — total expenditure fell a steep 17% y-o-y. For the sample, operating profit margins have increased by a whopping nine percentage points y-o-y. At TVS Motors, for instance, operating margins were a high 9.3% as other expenses mainly promotion and marketing costs were reined in. Nestle reported an Ebitda margin of 25%, a near life-time high on the back of higher gross margins, and lower A&P spends. Ultratech's India Ebitda soared 40%y-o-yon good volumes and lower costs which fell 7% y-o-y, from savings on energy and other expenses.

Some businesses could take longer to recover. Makers of commercial vehicles continued to fare poorly in Q2FY21; Tata Motors volumes for commercial vehicles crashed 29% y-o-y while the increase in the average selling price was just 1% y-o-y. Some companies, such as JSW Steel, reported strong volumes which jumped 14% y-o-y but realisations dipped slightly by 2% y-o-y. Asian Paints stunned the Street with an 11% increase in volumes that drove up revenues 6% y-o-y. The highlight of earnings season is undoubtedly the sharp magnitude of the recovery in IT. Both Infosys and TCS were able to grow revenues and margins smartly and also win deals; Infosys has upped its revenue and margin forecasts

In Bihar, less people are getting infected, but

An analysis of the ratio of recent deaths to daily infections shows that there has been a nearly three times increase in the proportion of deaths to cases. While Biharwas recording two deaths per thousand people at the start of October, this ratio has now increased to 7.3 deaths per thousand.

In terms of case fatality ratios

increase from 4.9 deaths per thousand to 5.1 deaths in the last one month. In terms of actuals, Bihar

too, there has been a slight

reported 46 deaths in the week ending November 8, while this figure was lower than the 48 deaths reported a week ago, it was still higher than the 25 deaths per week it reported by the end of September and at the start of October. Meanwhile, in terms of

cases, the number of infections has been declining since September. As Bihar was stepping into campaigning phase the state was recording 1,400 infections daily, now as elections have come to an end, daily cases have come down to 693.

A big reason for this may be the state's testing strategy. While one would expect the state to ramp up testing given the massive rallies and little adherence to social distancing, Bihar dialled down on testing figures. While it had ramped up its testing capacity to 1.7 lakh tests daily by the end of September, this declined to below 1 lakh in the middle of October. There has been an increase since to 1.3 lakh, but the state needs to be testing more.

Not just cases, in Delhi deaths too are rising

At one point Delhi accounted for just 3.6% of the country's daily deaths but that has now jumped to 14%. In terms of cases, Delhi's share has gone up from 3.7% to 15.2% during this period.

Hospitals are filling up too. On Sunday, 1,017 of the 1,257 or 81% of Delhi's ventilators and 82% of ICU beds were occupied.

While the Centre is asking private hospitals to reserve 80% capacity for Covid patients, the dashboard shows there's not too much non-Covid ICU capacity to spare. The occupancy rate in the case of non-Covid ICU beds was 77%. An FE analysis had shown

that the requirement for ventilators had started increasing even before Delhiwitnessed a spurt in infections. On September 14, 2.6% of active cases in the city were on ventilators, and another 2.7% were in the ICU. But on October 31, this proportion had increased, as Delhi recorded 2.7% people on ventilators and 4.3% in ICUs. On November 8, the number of ICU admissions had further increased to 4.4%.

Active infections need to increase to 54,350 for Delhi to run out of ICUs. On Sunday, Delhi had 40,258 active cases.

Nations moot supply-chain pact

In September, trade ministers

Pacific region. The decision came at a time when China's expansionist agenda across the South China sea and its borders with India had rattled several countries in the region. The idea is also to reduce the reliance on China for supply of goods and services. The initiative, currently limited to the government-to-government level, will also involve industries as well as a cademia of

these nations, according to seniorgovernment officials. The partnership is important, as it currently involves three major players in the Asia-Pacific region, with combined gross domestic product of \$9.3 trillion and trade (both goods and services) of \$3.6 trillion in 2019. Senior officials who are ham-

mering out broad contours of the partnership are initially focussing on these countries tradewith the world — from the raw material to the finished goods stage — in 10 key sectors. Accordingly, supply-chains may be tweaked. These sectors are petroleum and petrochemicals, automobiles, steel, pharmaceuticals, textiles and garments, marine products, financial ser vices, IT services, tourism and travel services, and skill development. Of course, this list of sectors will go through further stakeholder consultations, according to the officials.

"The ministers reaffirmed their determination to take a lead in delivering a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment and in keeping their markets open," according to a joint statement after a meeting of the ministers in September.

Commerce and industry minister Piyush Goyal, Japan's minister of economy, trade and industry Hiroshi Kajiyama and Australia's trade, tourism and industry minister Simon Birm ingham had attended the virtual meeting.

The move, originally mooted by Japan, gathered speed after the Covid-19 outbreak exposed China's unreliability as a supplier, especially to those coun tries with which it shares luke warm relations, said a source.

Addressing the meeting, Goyal had said the initiative couldn't have come at a more opportune time in the post-Covid scenario when "there is a likelihood of re-churning of supply chains in the Indo-Pacific region and it's incumbent on us to take the initiative".

Already, India, Japan and Australia make up the Quadrilateral Security Dialogue, or Quad, along with the US, to strengthen national security consultation.

The pandemic has not just

posed an unprecedented health crisis but also caused a sharp contraction in economic activi ties, disrupting trade and invest ments. The International Monetary Fund (IMF) has predicted as much as 4.4% contraction for 2020 global GDP, warning that the Covid-19 outbreak has plunged the global economy into its worst recession since the Great Depression in 1930s. The WTO, too, has in warned that global trade volume growth could crash by a steep 9.2% in

2020 from last year.
